ALPINE OR DOWNHILL SKIING—The Wisp Ski Area, located at Deep Creek Lake, is Maryland's largest and only ski area. With an elevation of 3,080 feet and a vertical drop of 610 feet, Wisp provides excellent skiing for young and old, beginner or expert. There are more than 23 trails on 80 acres of skiable terrain. The extensive lift system, which includes two triple chairs, three double chairs, rope tow, poma lift and handle tow, gives Wisp an uphill capacity of more than 9,000 skiers per hour. Wisp also offers snowmaking on 90% of all trails, and lights illuminate the mountain for night skiing several nights each week. A modern comfortable base lodge houses a cafeteria, ski rental shop, Rudy's Ski Shop and the Wisp Ski School.

Ski classes are available in private and group sessions, including lessons for children.

A variety of cottage, motel, and condominium accommodations are available.

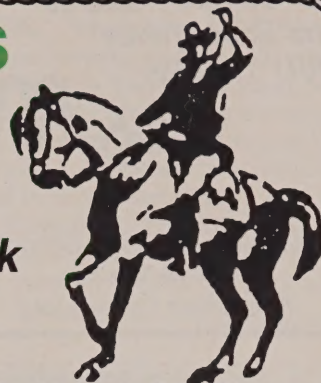

Scheduled entertainment is offered. The

2. No swimming or diving shall be permitted in any area of Deep Creek Lake where waters are covered by ice.

3. Sail-powered ice boats only, when ice permits.

GOLF—Garrett County features two 18-hole championship golf courses. The Oakland Country Club, which is open from April to October, offers a pro shop as well as Club House with dining room. HORSEBACK RIDING—Deep Creek Lake Area—Outdoor sports abound in scenic Garrett County, and horseback riding is fast becoming one of the most popular. One of the most relaxing ways to get away from it all and enjoy the area's spectacular scenery is on horseback. Both the Double G Ranch and Western Trails Riding Stables near Deep Creek Lake offer year round guided trail rides by the hour or half-hour, with package rides available, for both beginning and expert riders. See the display advertisements in this guidebook for further information.

HUNTING—Garrett County has long been noted for its excellent hunting. There are many thousands of acres of unspoiled forests offering good hunting to all. Areas open to the public include Mt. Nebo Wildlife Area, Deep Creek State Park, Garrett State Forest, Potomac State Forest and the Savage River State Forest. These combine to make a total of over 70,000 acres of public hunting land maintained by the State. Deer hunting in Gar-

rett County has always been popular. Garrett County also offers a fall and spring turkey season as well as a fall small game season. Rabbits, grouse and squirrels abound in the area. Local sporting goods stores provide licenses and supplies.

PICNICKING—All state parks and recrea-

tion areas have picnic areas. Several state roadside park locations are to be found in the area: Route 40, three miles west of Grantsville; Route 219, four miles south of Keyser's Ridge over-looking the Cove; Route 219, 3.3 miles north of Oakland; Route 50, 4.5 miles west of Gorman.

RECREATION (Continued)

SNOWMOBILING—Due to a large amount of snowfall each winter, snowmobiling is fast becoming a major sport. This exciting sport offers thrills for both young and old and has brought many indoor sports fans to the great outdoors.

Snowmobiling is permitted in State Forests on approximately 35 miles of marked trails. Snowmobiles may be rented locally from area businesses, and maps of existing trails and general information are available from the State Forest offices or the Promotion Council office. Snowmobiling is permitted on private lands only with written permission from the landowner. You may not ride a snowmobile on or adjacent to public highways except to cross at a 90-degree angle. You may not cross a limited access highway. Be sure when you cross a road you are on a designated DNR trail or that you have written permission from all land-owners involved. Additional information may be obtained from the Maryland State Police at (301) 387-5511.

SWIMMING—One of the most popular of all summer sports. There are four public swimming areas in the county. Deep Creek Lake State Park features an 800-foot sandy beach with lifeguards on duty during the

summer months. A bath house, concession building and picnic area are also available. New Germany State Park, south of Grantsville, has a 13-acre lake with 600 feet of beach. Lifeguards, rental rowboats and a picnic area are also featured. Herrington Manor State Park near Swallow Falls features a 53-acre lake with 400 feet of sandy beach. Rental rowboats, paddle boats, picnic area, bath house, concession building and on-duty lifeguards combine to make your visit a memorable one. Broadford Recreation Area near Mt. Lake Park, has a 138-acre lake with 600 feet of beach, bath house, picnic area, concession building and lifeguards on duty through the summer.

TENNIS—The ever-popular sport of tennis offers fun and challenge, and there are several courts throughout the county open to the public:

The Court Club—Located on Deep Creek Drive in McHenry, just off Route 219. Two asphalt courts; open during daylight hours. Fee.

Grantsville Town Park—Located at Exit 19 off Route 48; four asphalt courts are open during daylight hours; no fee.

Northern Middle School—Located behind Northern High School off Route 219 in Accident. Two courts available when school isn't in session; daylight hours.

Southern Middle School—Located off Broadford

Road, Oakland. Courts open when school isn't in session; daylight hours.

Starlite Motel—Located on Route 219 (Third Street) in Oakland. One court, open until 11 p.m. Fee.

WATERSLIDE—Deep Creek Lake Area—As one of Garrett County's newest recreational attractions, the Monkey Lodge Hill Waterslide near Deep Creek Lake offers fun and excitement for the entire family. This waterslide is the only one of its kind in Western Maryland, offering fiberglass twin flat bottom flumes ending in a landing pool 3 feet deep. See the display advertisement in this guidebook for further information. ■

Things to See

BEAR CREEK FISH REARING STATION—The history of Garrett County is closely associated with its excellent trout fishing. Since the early 19th century, sportsmen have come to the area for trout. Many records of phenomenal catches still exist. At the Bear Creek Fish Rearing Station on the Bear Creek Road near Friendsville, visitors can see the future catches in all stages of growth, from fingerlings up to 14-inch prizes. The pools are located in a green glade with large trees.

BROADFORD RECREATION AREA—A delightful park outside Oakland in Mt. Lake Park off Pittsburgh Avenue, this area boasts a 138-acre lake with 600 feet of beach. There is a bath house, concession building, boat ramp for rowboats, and extensive picnic grounds. The emphasis is on bathing, picnicking and fishing.

Owned and operated by the town of Oakland, a nominal admission fee is charged.

THE COVE—Traveling on Route 219 south, you can see a panoramic view of one of the finest farming districts in the area. At a 2,800-foot elevation on the highway, the cove appears to be a huge amphitheatre, surrounded on all sides by mountain ranges. Farms are laid out in soil-conserving contour strips. During the spring, summer and fall, an artist's painting could not be more picturesque. If traveling south from Route 48 on Route 219, the Cove scenic overlook is located a few miles north of Accident. The view is highly recommended.

CRAFTS—In recent years, there has been a resurgence in the popularity of original crafts and handcrafted items. There are several

places in Garrett County which serve as outlets to countless area craftsmen. All are open to the public and you are encouraged to visit and see examples of original handcrafted items. Demonstrations of various crafts are scheduled throughout the year at Penn Alps in Grantsville, where examples of weaving, woodworking, wood carving, clock making, casting and forging, as well as many other crafts are dem-

onstrated. Local craft outlets are listed in the Directory of Services.

THE CRANESVILLE SUB-ARCTIC SWAMP—An historic place is one where something of significance has happened, but there is a rare species of site which is history in itself—a silent testimony of time, such as this one.

One of nature's greatest natural phenomena,

THINGS TO SEE (Continued)

the swamp covers 500 acres of land which sprawls across the boundaries of Maryland and West Virginia. Formed during the Ice Age, this remnant of boreal forest produces growth normally found only in arctic regions and offers geologists, biologists and nature buffs the opportunity to observe many rare species of flora and fauna, including the extremely rare northern water shrew and the whooping crane. The swamp is a true bog and during the wet seasons, traveling to the in-

terior is nearly impossible. Visitors may view the perimeter of the swamp from public roads. A boardwalk has been constructed for easy visitor access. To preserve the fragile ecology of the swamp, visitors are requested to remain on the boardwalk or designated paths and not to pick shrubbery.

To reach the swamp from Oakland, follow Liberty Street out of town past the B & O Railroad Station; this becomes the Herrington Manor Road. Go approximately 6 miles and turn left on the Cranesville Road; go 4

miles and just past *Bell Ringer Originals In Wood*, turn left onto a dirt road at a sign marked "Cranesville Swamp Nature Preserve;" after traveling on this road approximately ½ mile, bear right onto another dirt road; in less than ½ mile, there is a large stone marker on the right, which marks the entrance to the footpath to the swamp. To reach the boardwalk, continue driving past the stone marker a short distance and turn right beneath the electric power lines.

find Deep Creek Lake the center of Garrett County's recreational attractions—the most ideal spot for a summer or winter vacation. The largest fresh-water lake in Maryland, it is 12 miles in length with a shoreline of 65 miles covering nearly 3,900 acres.

Built in 1925 by the Youghiogheny Electric Company, the lake was purchased by the Pennsylvania Electric Company in 1942. It is now leased to the Maryland Inland Fish and Game Commission for the nominal fee of one dollar a year. The lake is managed by the Maryland Department of Natural Resources.

A wide variety of activities abound, including boating, water skiing, fishing, swimming, hiking, picnicking, sailing, downhill and cross-country skiing and snowmobiling.

Guests will find a number of campgrounds in the area. Motels, cottages and condominiums also dot the shoreline, providing excellent accommodations. Some provide dock facilities, sandy beaches and swimming areas. Deep Creek Lake and the surrounding area also boast some of the finest dining establishments in the State.

FINZEL SWAMP—An ice-age relic from the past, Finzel Swamp has long been known by natural history buffs as the place to go to

see plants and animals in the habitat much like one that exists hundreds of miles to the north. Now owned by The Nature Conservancy, Finzel Swamp allows visitors the chance to see these unusual species close at hand and to experience one of the finest natural areas in Maryland. To get to the swamp, take the Finzel (Route 546) exit from Route 48 and go north about 1.5 miles. Turn right onto the dirt road just past the recreation area and take the left fork to the swamp. For more information, contact The Nature Conservancy, 35 Wisconsin Circle, Chevy Chase, MD 20815, (301) 656-8673.

MAPLE SUGAR—Sugaring is older than the history of our nation. Indians tapped the trees long before the white man arrived. The art of sugaring is still practiced in Garrett County, basically unchanged from Indian days. Although one may see tractors instead of horses, the production techniques are much the same. In spite of the fact that a maple must be 40 years old before it can be tapped, many groves still exist in Garrett County. One of the most beautiful is Brenne-man's Grove, located near Bittinger. Sugaring takes place in late winter or early spring and authentic Garrett County maple products are available from several stores in the area.

MUDDY CREEK FALLS—Muddy Creek Falls is in the Swallow Falls State Park within the Garrett State Forest. At 64 feet, it is the largest waterfall in the State of Maryland, and an area of scenic perfection. Framed by tall steep slopes covered with giant hemlock, it is an area of noble primitiveness.

The land beside the falls is the site of the 1918 camp of pioneer motor tourists, Henry Ford, Thomas Edison and Harvey Firestone. These three titans of American industry, who had the world to pick from, chose to come to this site when they wanted to enjoy themselves. The site of the camp has been marked. The trio returned in 1921.

Situated in a cool, towering forest, the area has complete facilities for camping and picnicking. This 64-foot cataract is highly recommended to the nature lover and camera buff.

Allegheny Mountains, with Garrett County lying in the heart of the area served. It operates the largest handicraft marketing facility in this mountain region, in conjunction with a restaurant containing four dining rooms. The Alpine Room, which was added in 1969, is graced by a huge fireplace of stone dressed in 1818, exposed beams and bay windows green with plant life.

Situated on U. S. 40, just east of Grantsville, Penn Alps is conveniently located for tourists and has ample parking facilities. From June through October, handicraft demonstrations and classes dot the Penn Alps "campus" of several acres.

RUTH ENLOW LIBRARY OF GARRETT COUNTY—This county library system includes the main library in Oakland, branches in Grantsville and Accident, and community libraries in Friendsville, Kitzmiller and Finzel. Library users (including visitors) in any part of the county may borrow from the collection of 60,000 hard-bound and 4,000 paperback books, over 150 magazines and 2,000 phonograph records. TWX connections make it easy to borrow needed materials also from the libraries in Hagerstown, Baltimore and several universities. Books borrowed in Gar-

rett County may be returned to any other public library in Maryland. Movies, video and audio cassettes, filmstrips, slides, jigsaw puzzles and framed prints are available for

5½ miles. The road from the Savage River Dam to Bloomington parallels the river for most of the run.

One of Maryland's largest, the Savage River Dam is 1,050 feet long, rising 184 feet above the stream bed. Stream flow from the dam is controlled by a concrete-lined tunnel 10 feet in diameter and 170 feet long. This will be the site of the **1989 Whitewater World Championships**, which will include participants from 20 countries around the world.

The Savage River Reservoir provides excellent fishing year-around.

YOUGHIOGHENY OVERLOOK INFOR-

MATION CENTER—This Center features information on all areas within the State of Maryland. Brochures are available at this State center which is open year-round, seven days a week.

From Memorial Day through Labor Day the center is open 8:30 a.m. to 6:00 p.m. After Labor Day through Memorial Day the hours are 9:00 a.m. to 5:00 p.m.

The Center is managed by the Deep Creek Lake-Garrett County Promotion Council and is located on the eastbound lane of Rt. 48 east of Friendsville.

YOUGHIOGHENY RIVER AND RESERVOIR—One of the most exciting scenic rivers

in Maryland is the Youghiogheny. Its waters flow through a vast unspoiled area from Southern Garrett County to north of Friendsville, where it feeds the Youghiogheny Reservoir, a recreation and flood-control project of the Army Corps of Engineers. The State of Maryland is moving to preserve the Youghiogheny and keep it in its natural state. Many parts of the river and reservoir offer excellent fishing. Trout and bass are favorite catches.

Garrett State Forest which includes Swallow Falls State Park on the Youghiogheny River offers several miles of hiking trails as well as camping sites. ■

B&O RAILROAD STATION IN OAKLAND—One of the oldest stations in the country, this Queen Anne-style station was built in 1884 after the B&O had developed a resort clientele for Oakland and Garrett County. The ground the station stands on was used by the B&O Railroad as early as 1851.

The Oakland station is now in the National Registry. It is distinguished by its in-

cised brick, picturesque massing and the mixing of building materials characteristic of this disappearing building style. It was built by the Baltimore firm of Baldwin and Pennington, which constructed a similar station in Laurel, Maryland in 1884.

It is located in Oakland, near the intersection of Second and Liberty Streets.

BRADDOCK'S TRAIL—Built by British

General Edward Braddock's army in 1755, under the direction of aide-de-camp George Washington, the trail really is an improvement of the old Indian route, Nemacolin's Trail. The General died along this route while retreating from near Fort Duquesne (Pittsburgh) to Fort Cumberland, after a crushing defeat by a small force of French and Indians.

HISTORICAL SITES (Continued)

Braddock's Trail became a major route west until it was abandoned in the 19th century with the construction of the National Road (Route 40).

The Trail is most readily identified at Little Meadows, one of Braddock's most important encampments and a site often used by George Washington. It is about four miles east of Grantsville on the North side of U.S. 40.

CASSELMAN HOTEL—The Casselman Hotel commemorates the great days of the National Pike. Located on Main St. (Old Rt. 40) in Grantsville, the hotel, still in operation, was

first opened as a drover's inn in 1824. Many of the early features of the building have been preserved; to the modern traveler, the hotel offers all of the modern conveniences. The hotel has been in operation for over 150 years and is one of the outstanding landmarks within Garrett County's boundaries.

CASSELMAN RIVER BRIDGE—At the time of its construction, this was the largest single-span stone arch bridge in the United States (80 feet). Built in 1813 of beautiful native Western Maryland stone, it served traffic on the nation's first Federal highway.

Once a part of the National Pike running

between Cumberland and Wheeling, WV, it provided an improved method of transportation for drovers, freighters, waggoners, horse-men, stagecoach passengers and pedestrians, when the western frontier was the Alleghenies.

While watching its construction, people speculated that the bridge would collapse when the supporting timbers were removed. To avoid having the general public as an audience should the bridge collapse at the celebration planned for the removal of the supports, the contractor loosened them the night before the ceremony. The next day he stood under the bridge during the ceremony to prove its worthiness. The graceful stone arch has stood for the past 174 years as one of Garrett County's most photogenic, as well as historic sites.

The bridge was closed to traffic in 1953 and restored with funds made available by the State of Maryland. In 1964 the Department of Interior designated the bridge a Registered Historical Landmark.

A beautiful setting for a summer cookout or outdoor get together, there is a picnic area with fireplaces and other facilities alongside the bridge. The bridge is located on Route 40 east of Grantsville near Penn Alps.

CHURCH OF THE PRESIDENTS IN OAKLAND—All three of the Presidents—Grant, Harrison and Cleveland—who preferred Garrett County to any other place for their vacations, attended services in this stone building at the corner of Second and Liberty Streets in Oakland. For some years it was not used, but it is now open to the public and occupied by St. Matthew's Episcopal Congregation who restored the building to its present handsome condition.

America, depicting settlement of the Friend family in Garrett County, beginning with John Friend, Sr., founder of the town of Friendsville, the first white settlement in the County. The museum and library offer a wide variety of artifacts associated with the Friend family, including the Col. Lester Friend Genealogical Library and Friendship Store. The museum is located on Maple Street in Friendsville, and is open limited hours on Wednesday and Saturday afternoons. Visitors desiring additional information or an appointment may contact Mrs. Jessie McCullough at (301) 746-5338.

FRIENDSVILLE—The site of the first settlement (Selbysport is the oldest town) in Garrett County, Friendsville was named for John Friend, Sr., who came to the area in 1765 and bought the land from the Indians. When the C & O Railroad was built in 1890 the town became an important shipping point for lumber products.

Friendsville, located near Exit 4, off Route 48 along the Youghiogheny River, is now most noted for its very popular annual fiddlers competition. (See Calendar of Events.) It is also the home of the Friend Family Museum and Library.

GARRETT COUNTY HISTORICAL MUSEUM—The museum first opened in November, 1969 and is operated under the auspices of The Garrett County Historical Society, Inc. Many artifacts which are important to the historical and cultural development of Garrett County are preserved in the museum. Visitors are always welcome and many hours of delightful reminiscing await. The many exhibits and displays portray the people of Garrett County, their way of life and their progression through the years. A newly opened Indian & military section con-

tains artifacts from the USS Garrett County. The museum is located on Center Street in downtown Oakland. There is no admission charge. Special tours may be arranged. For information and hours, contact the curator at (301) 334-3403 or (301) 334-3226.

GRANTSVILLE—Grantsville is located 2 miles south of the Mason-Dixon Line on Route 40. A pleasant community, Grantsville is in the heart of some of the most

productive farmland in the region.

As the oldest and most historic section of Garrett County, Grantsville is the site of many historic landmarks. For example, the visitor will find the Casselman Hotel, built in 1824. It was first used by drovers and farmers traveling westward over the National Pike. Still in operation, the Casselman Hotel offers services to today's traveler.

HISTORICAL SITES (Continued)

The Casselman River Bridge, built in 1813 on Route 40 east of Grantsville, was the largest single-span stone arch bridge of its kind at the time of construction. The bridge offers excellent photographic opportunities, as well as picnic facilities in a charming setting.

One of the oldest grist mills in Garrett County, Stanton's Mill, is located at Grantsville. The mill dates back to 1797. Still in operation, it is an interesting stop for any visitor.

McHENRY—Named for Col. James McHenry of Baltimore, who was an aide to General George Washington during the American Revolution. Dr. McHenry was a physician, signer of the Constitution, and Secretary of War under two Presidents. Fort McHenry in Baltimore, site of the British bombardment during the War of 1812, was also named in his honor. On Route 219 at McHenry, overlooking Deep Creek Lake, a memorial plaque has been erected honoring Dr. McHenry.

The settlement was originally named "Buffalo Marsh" since the carcass of a large buffalo was found in the mud there by the first white men who visited the area.

McHenry is the site of Wisp, Maryland's largest downhill ski slope; Deep Creek Lake, Maryland's largest freshwater lake and center of the area's recreational activities; Garrett Community College, a fully accredited 2-year learning institution; and the Garrett County Fairgrounds, home of the annual County Agricultural Fair and many other activities.

MOUNTAIN LAKE PARK—From 1882 until 1942, was a Chautauqua-type resort, having as many as 28 hotels and boarding houses in 1912. Thousands of visitors from all over the east would visit the Park every year to partake of the cool, clean mountain air and the numerous cultural, educational and recreational activities offered by the Chautauqua program. Wealthy families fortunate enough to own their own homes in the Park would bring their servants, animals, and in later years, automobiles, via the B&O Railroad and spend the entire summer. President William Howard Taft, William Jennings Bryan and the evangelist, Billy Sunday, were just three well-known individuals who visited the Park and spoke before huge audiences. Many of the musical, dramatic and oratorical performances were presented in a 5,000 seat amphitheater.

A portion of the Park with a number of Victorian houses has been listed in the National Register of Historic Places.

OAKLAND—Situated on a plateau 2,650 feet above sea level, the county seat was founded 23 years before Garrett County was established. The main line of the B&O Railroad came through Oakland in 1851 boosting the community's development as a commercial center. The railroad was also responsible for the popularization of the Deer Park-Oakland area as a resort in the late 1800's.

Current existing sites of interest in Oakland include the Garrett County Courthouse, built in 1908; the Garrett County Historical Museum on Center Street; the B&O Railroad Station, "The Church of the Presidents" (St.

Matthew's Episcopal Church) on Liberty Street; and the Ruth Enlow Library. See other entries in this book for additional information on other attractions.

"OUR FATHERS HOUSE" LOG CHURCH—Now a mission of the Episcopal Church, this is among the last log churches in the Eastern United States remaining in use today. Reportedly built at a cost of \$50, it is situated in a shady grove on Route 135 on Backbone Mountain near Altamont.

PENNINGTON COTTAGE AT DEER PARK—The Pennington Cottage, located on the north side of the old and once-famous Deer Park Hotel Resort, Deer Park, Maryland, was designed by Mr. Josias Pennington in 1892. This is a large three-story summer cottage with fourteen rooms.

Mr. Pennington was a member of the firm of Baldwin and Pennington, prominent architects of Baltimore. Among the buildings designed by the Baldwin and Pennington firm were the Baltimore Police Department Headquarters, the addition to the State House in Annapolis, and the Passenger Car Roundhouse at Mount Clare, now the B&O Railroad Transportation Museum, Baltimore.

The Pennington Cottage is located about three miles east of Mt. Lake Park, Maryland, on the south side of Route 135 on the old Oakland and Deer Park Road.

In the early days of railroading, Deer Park played host to travelers and dignitaries from all over the nation. The famous Deer Park Hotel, built by the Baltimore and Ohio Railroad, served as the central location for vacation and activities. Presidents Grant,

Harrison and Cleveland came to Deer Park for summer holidays.

THE SANG RUN AREA—Out of its magnificent resources the county has produced a book which, for a hundred years, has rated as a great hunter's classic. This autobiography is "Forty-Four Years of the Life of a Hunter," written by Meshach Browning, Maryland's most noted hunter. His famous rifle is now on display in the Smithsonian Institution.

Meshach Browning settled in this area, known at one time as the "Sanging Ground." His hunts in this region northwest of Deep Creek Lake made him a legend.

In its very name, "Sang Run" contains a reminder of a plant that has long association with American mountain life—that is, ginseng, shortened by the mountaineers to "sang." Its market continues to thrive and the dried wild root is so valued by the Chinese for

medicinal purposes that it draws the astonishing price of over \$100 a pound!

STANTON'S MILL—One of the oldest grist mills in Garrett County, built in 1795 by Jesse Tomlinson. The mill was rebuilt in 1856 by Perry Schultz and deeded to William Stanton

in 1862. Stanton's son, Eli, operated the mill for 43 years; the mill is still in operation today and operated by Stanton descendants. The mill is located near Little Meadows on Route 40 near Grantsville, and is open Monday through Saturday from 8 a.m. to 5 p.m. ■

Garrett County History

HISTORICAL SKETCH OF GARRETT COUNTY—Garrett County was created in 1872, the last of all Maryland Counties created. Moreover, unless the constitutional provision requiring an area of at least 400 square miles for each new county is amended, there will be no new counties formed in the future. "Laurel" was considered as a name for the county, but local sentiment was overwhelmingly in favor of Garrett, in honor of John W. Garrett, who was at that time president of the Baltimore and Ohio Railroad.

The method followed in the creation of Garrett County is unique in Maryland history. A permissive clause for the creation of a county in the area now included in the bounds of Garrett County was inserted in the constitution of 1851 (Art. 8, Sec. 2). Nothing was done about the matter, however, until 1872 after two subsequent constitutions, 1864 and 1867, had provided that any new county must have an area of at least 400 square miles and a population of at least 10,000. Serious agitation for another Western Shore county began after the creation of Wicomico County on the Eastern Shore by the constitutional convention of 1867. By 1871 it was conceded that all constitutional requirements had been met, and the Assembly created Garrett County by act of April 1, 1872 (Acts 1872, ch 212.) The bounds were fixed by the act:

"That all that part of Allegany County lying south and west of a line beginning at the summit of the Big Backbone, or Savage Mountain, where the mountain is crossed by Mason and Dixon's line, and running thence by a straight line to the middle of Savage

River, where it empties into the Potomac River; thence by a straight line to the nearest point or boundary of the State of West Virginia; then with the said boundary to the Fairfax stone, shall be a new county, to be called the County of Garrett; *provided* the provisions of this act as to taking the census of the people and the area of said new county, and the sense of the people therein, shall be com-

plied with in accordance with the constitution of this state."

These boundaries consist of three straight lines on the west, north, and east and the Potomac River on the south. The southern boundary of the county lies on the right bank of the north branch of the Potomac, whose waters are accordingly within the limits of

GARRETT COUNTY HISTORY (Continued)

Garrett County. The northern boundary, fixed by that part of the Mason and Dixon line which had no permanent markers, was not known exactly until the resurvey of that line undertaken by the states of Maryland and Pennsylvania some time later. The eastern boundary was long in dispute because of the difficulty of surveying the line required by the act. The western line, which also marks the common boundary of Maryland and West Virginia, could not be drawn exactly until the boundary dispute between these two states was settled. When all its limits were fixed, Garrett County was found to have an area of 662 square miles, making it the second largest county in the state.

HISTORY—The history of Garrett County is a record of peaceful settlement and development. No battles were fought here, yet most of the great events and forces of American History played a part in the growth of the county.

The development of several important roads served to open the county to settlers. In some instances the Indian trails were widened. One such trail, Nemacolin's Path, passed through the northern part of this county. General Braddock's army, in 1755, followed this route and cut the first wagon road from Fort Cumberland through the wilderness to the Great Meadows near Uniontown, Pennsylvania. Along this road occurred the opening battle of the French and Indian War when the young Colonel George Washington was defeated at Fort Necessity. This old road remained in use for a number of years.

The Old State Road (the Winchester-Morgantown—Clarksburg Road) built in 1789 through Garrett County was used by settlers going to the new lands opened up by the Louisiana Purchase.

The first great highway linking the eastern and western sections of the United States was the Cumberland Road, which passed through the northern section of Garrett County near the old Braddock Road. This highway, built by the Federal Government between 1811 and 1819, soon became known as the National Road and today is part of U.S. Route 40. The town of Grantsville, named for Daniel Grant of Baltimore, grew up along this highway.

The Northwestern Turnpike, another famous east-west route, crossed the southern part of the county. It was proposed by George Washington and surveyed by Crozet, once a soldier in Napoleon's army in Egypt who was then engineer for Virginia. This famous pioneer route is now part of U.S. Route 50.

Only a few settlers came into the area before the Revolution. John Friend, Sr. and his brothers established the first permanent settlement, "Friend's Fortune," at the mouth of the Youghiogheny River, now the town of Friendsville, in 1765. The noted hunter Meshach Browning describes the early days of pioneer life in his book, "Forty-Four Years of the Life of a Hunter."

The building of the Baltimore and Ohio railroad through the mountains in the 1850's had an even greater effect on the growth of the county than the coming of the highways. After the construction of the railroad through

the southern part of the county, new farm lands were cleared, timber and coal resources were developed, and towns were built along the route. Oakland was laid out in 1849 near the little settlement of McCarty's Mill. Bloomington was laid out in the same year as a coal mining center, and Swanton grew up as a shipping point for lumber.

After having been part of Allegany County for 83 years, Garrett County was formed in 1872. Oakland, the commercial center for the southern area, was chosen as the county seat. The county was named for John W. Garrett of Baltimore, who, as president of the Baltimore and Ohio Railroad, had done much to further the development of the area. During his presidency, the railroad built large summer resorts in Deer Park and Oakland. Deer Park became a resort for the wealthy before 1900. President and Mrs. Cleveland spent a week of their honeymoon there in 1886. The town of Mt. Lake Park was

organized in 1881 as a summer religious and cultural center. After 1900 Garrett County's popularity as a summer resort declined, but the coming of Deep Creek Lake and the State Parks reversed the trend.

Coal and lumber have always been important industries in the county with the communities of Kitzmiller, Shallmar, Vindex, Kempton, and Jennings developing as mining centers, and Friendsville and Crellin as lumber and coal areas. Grantsville and Accident have remained primarily agricultural centers.

The Garrett County Historical Society was organized in 1941 under the leadership of the late historian Captain Charles E. Hoyer, who edited its quarterly publication, the Glades Star. The magazine circulates through out the United States to more than 500 members and has been continuously published for forty years. The Society maintains its own building on East Center Street in Oakland, the Garrett County Historical Museum, Mrs. Beth Friend, curator.

GEOGRAPHY—Garrett County is located in the extreme western section of Maryland. It is bordered on the north by Pennsylvania and on the west and south by West Virginia. Roughly triangular in shape and containing 662 square miles, it is the second largest county of Maryland in land area. The Potomac River forms the southern boundary and meanders irregularly north-eastward to the Allegany County line. The 1980 population is approximately 40 persons per square mile. It is among the more sparsely populated counties in the state of Maryland.

The topography of Garrett County is largely mountains. All of the county lies within the Appalachian Plateau. The average elevation of the county is 2,300 feet above sea level. There are five main mountain ridges: Backbone Mountain, Savage Mountain, Meadow Mountain, Negro Mountain and Winding Ridge. The highest point in the county is Backbone Mountain, 3,360 feet. The lowest point, 900 feet, is in the middle of Savage River where it empties into the Potomac.

There is a continental divide in Garrett County. It runs along the crest of Backbone and Meadow Mountains; the water flowing down the east slope goes into the Chesapeake Bay via the Potomac River. The water on the west slope flows into the Gulf of Mexico, via the Youghiogheny, Monongahela, Ohio, and Mississippi Rivers. The main tributary of the Potomac is the Savage River on which a large flood control dam was built. The Casselman River is the main tributary of the Youghiogheny.

ECONOMY—Garrett County is predominantly a farming community. Most of the privately owned land is used for farming. The area around Deep Creek Lake and the various towns are exceptions.

Garrett County leads the state in the production of hardwood lumber and supplies many other forest products.

Deep mining and strip mining occur in the basins of the Upper Potomac, Casselman, Upper Youghiogheny, Lower Youghiogheny and in other areas of the county.

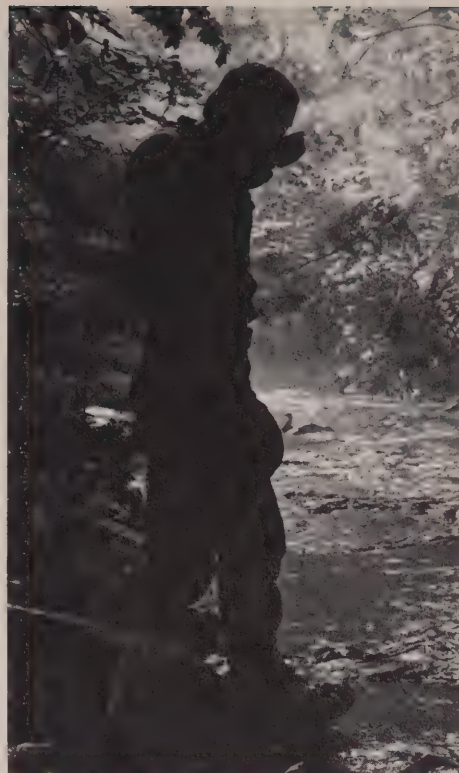

The area's mountainous terrain combined with Deep Creek Lake provides many opportunities for both summer and winter sports;

therefore, recreation is a major factor in the county's economy.

A number of industries are located throughout the county. In 1970 the firm of Bausch and Lomb built a large plant in the county. The firm became operational in 1971.

INCORPORATED TOWNS—There are eight incorporated towns in Garrett County: Accident, Deer Park, Friendsville, Grantsville, Kitzmiller, Loch Lynn Heights, Mountain Lake Park and Oakland. They provide various services within their jurisdiction and levy property taxes to meet their expenses. Each town has a mayor and council chosen in non-partisan elections. County voting registration does not include municipal voting privilege, and municipal elections are not held simultaneously with county and state elections. Citizens should consult their municipal authorities to determine where and when to register for municipal elections and when elections are held. ■

With more than 70,000 acres of public lands and numerous rivers and mountain streams, Garrett County offers spectacular scenic tranquility.

History abounds in Garrett County, where visitors may see the B&O Railroad Station in Oakland, built in 1884, or enjoy a picnic at the Casselman River Bridge, built in 1813, on the old National Road (Route 40) east of Grantsville.

State Forests & Parks

Camping Hours

Occupancy may take place between the hours of 8 a.m. and 11 p.m. Campers are not permitted to enter the camping area after 11 p.m. Check out time is 3 p.m.

Trailers

Camping trailers up to 29 feet in length are permitted. House trailers are not permitted.

Improved Campgrounds

Each campsite allows sufficient room to park one car and a camping trailer, or to park one car and erect a tent up to 16'. (Sometimes off-site parking is necessary.) A picnic table and grill are provided at each site, and drinking fountains and water spigots are located nearby. Camping areas contain centrally located washhouses, equipped with toilets, lavatories and showers with hot water available. Laundry tubs are available in some parks during summer.

Unimproved Campgrounds

These sites also allow ample room for the parking of one car and a camping trailer, or the erection of a tent; however, in some areas off-site parking may be necessary. Tables and fireplaces are available and a source of water and a comfort station are within walking distance. Comfort stations are equipped with toilets only.

Cabins

Summer Season—Cabins may be reserved for one-week periods during the summer season (Saturday to Saturday), which is from the first Saturday of June through the first Saturday in September. Applications may be filed any time after the first of December, but must be in

possession of the Park Service by the second Monday in January. A lottery-type drawing by computer will be held on the third Monday in January for cabin assignments.

Off-Season—Cabins may be reserved for a minimum of two nights during the spring, fall and winter seasons. These cabins are available from the first Saturday in September through the first Friday in June. Reservations are on a first-come, first-served basis, and will be accepted beginning the second Tuesday in August. Some cabins are handicapped accessible.

For a "Cabins in Maryland's State Parks" brochure and required application, contact the Maryland Forest Park and Wildlife Service, Tawes State Office Building, 580 Taylor Avenue, Annapolis, MD 21401. (301) 974-3771.

Camping in Maryland State Forests

Maryland State Forests have primitive campsites only, without man-made improvements. Camping permits must be secured from the forest manager.

Season: Open all year; Unlimited camping hours. Quiet time, 11 p.m.

GARRETT STATE FOREST—Mountain forests, streams and valleys make up the 7,400 acres in Garrett State Forest. In 1906 the Garrett brothers of the B&O Railroad fame gave the State of Maryland 2,000 acres of forest land providing that a state forestry department be established to manage the area. The donated area was originally named Swallow Falls State Forest. The name was changed in 1976 to Garrett State Forest in honor of the donors. Within the Forest are the two oldest State Parks in Maryland. These are Herring-

ton Manor and Swallow Falls State Parks.

Swallow Falls State Park contains three varied waterfalls: Muddy Creek Falls, Maryland's largest; Swallow Falls, certainly one of the state's most beautiful; and the tranquilly beguiling little Tolliver Falls.

POTOMAC STATE FOREST—This Forest contains 12,400 acres of trees, streams and wildlife. It is located along Backbone Mountain near the headwaters of the historic Potomac River. The terrain is rugged with elevations ranging from 1,800 feet along the Potomac to 2,960 feet on Backbone Mountain. This steep gradient gives rise to numerous fast falling brooks and streams which feed the river. Several of the larger streams are Schell, Laurel, Lostland Run, and Crabtree Creek.

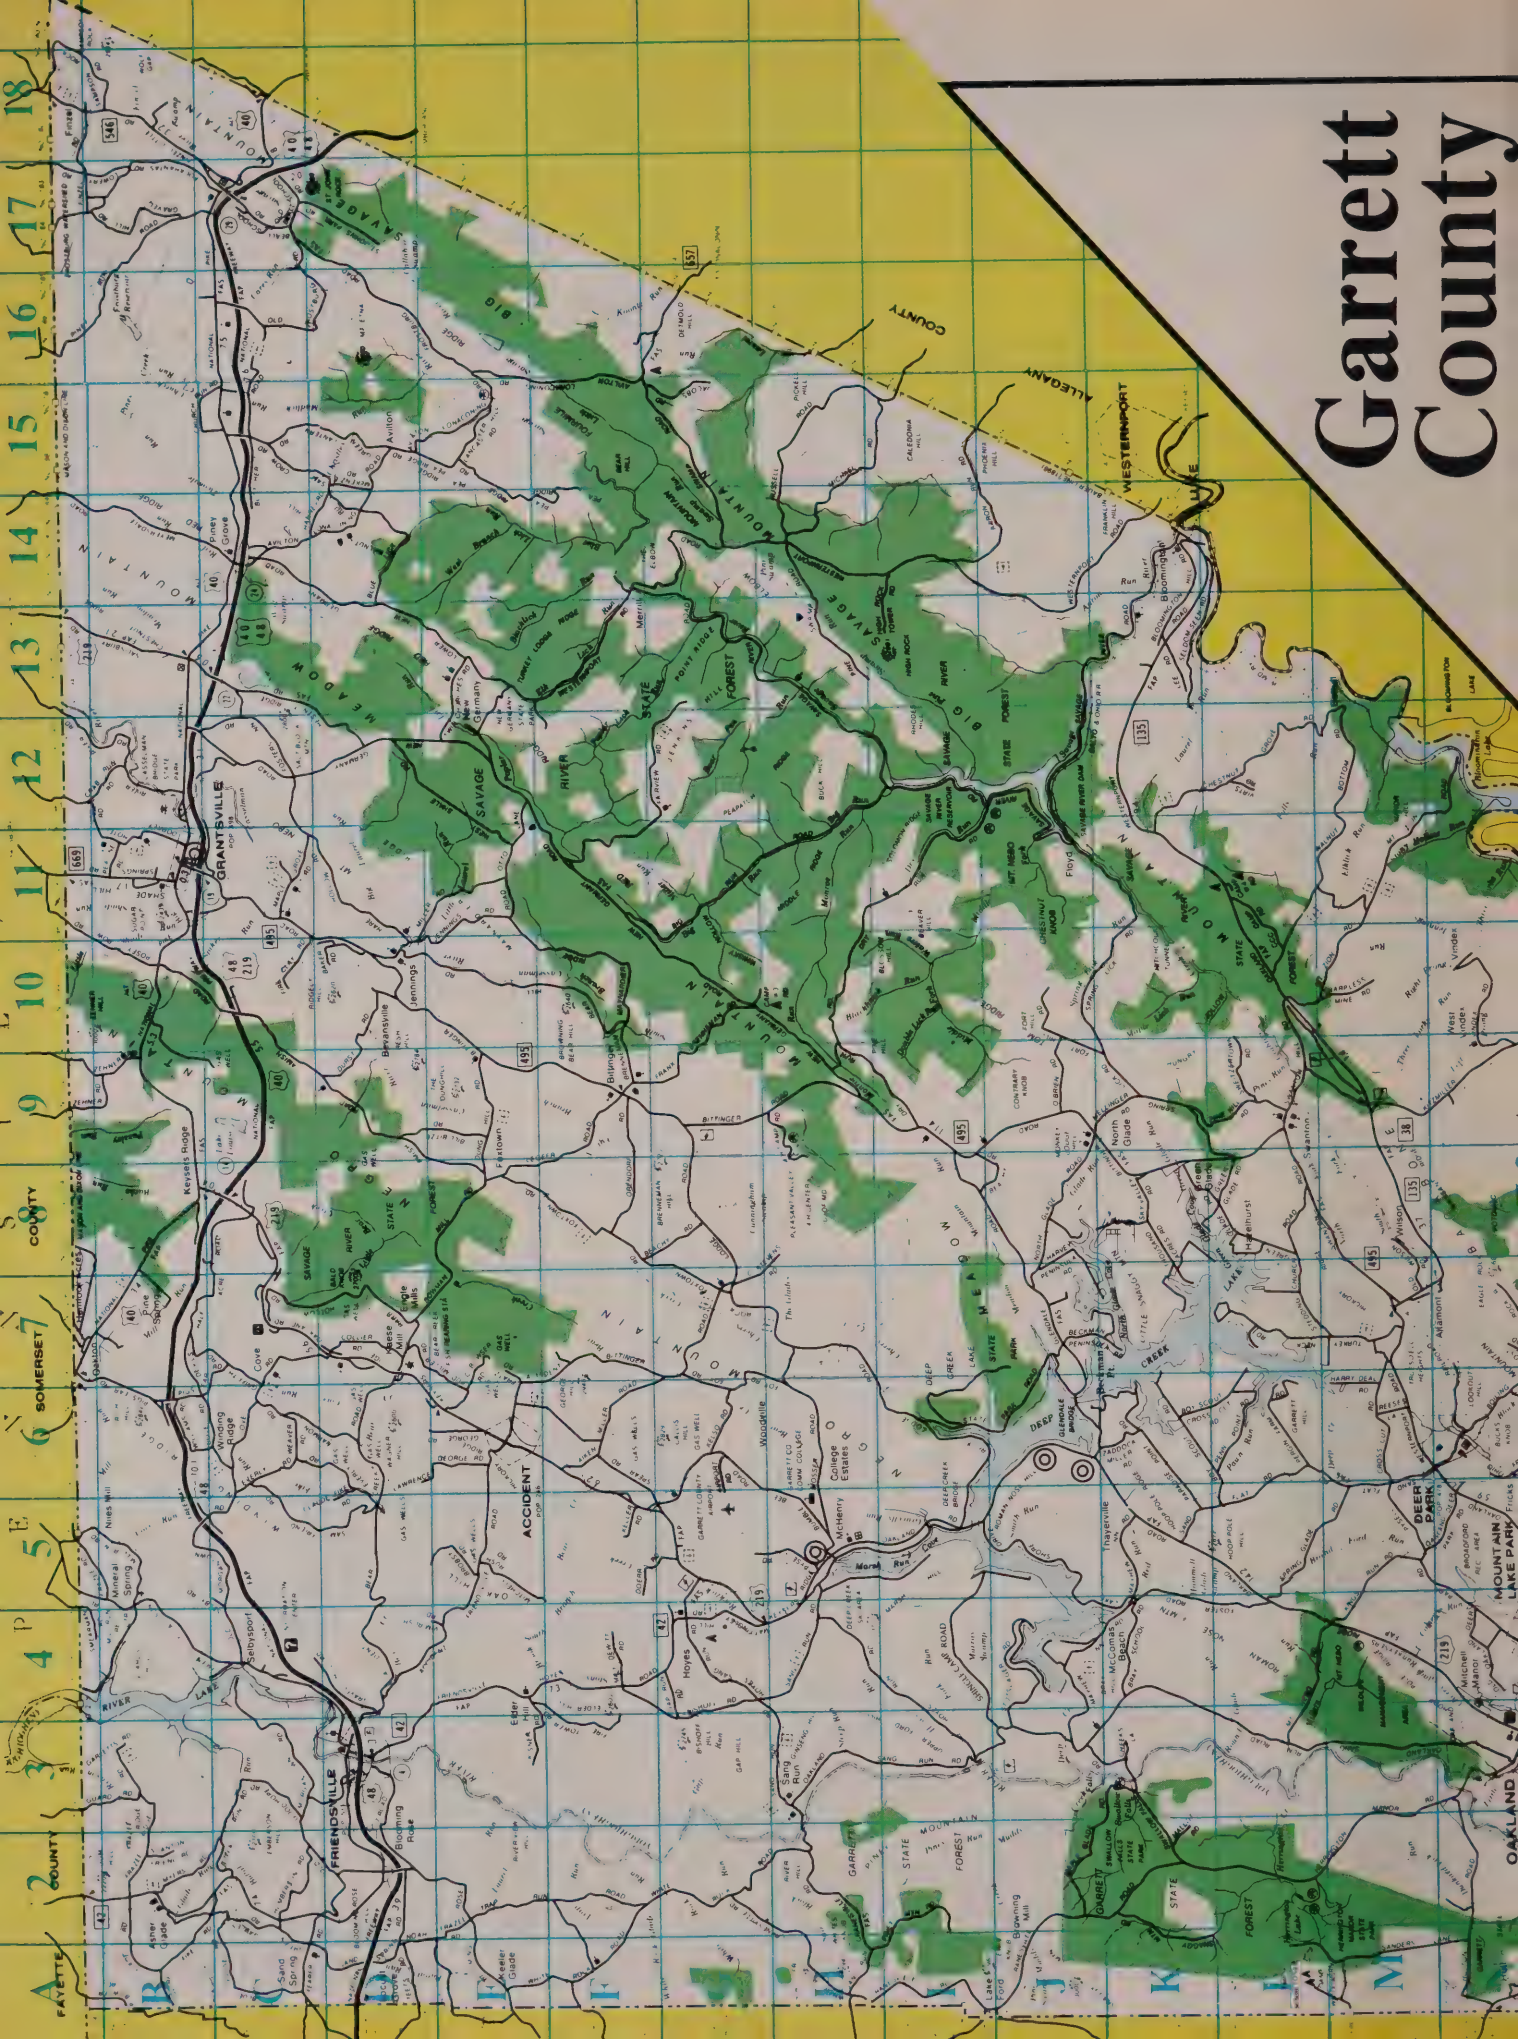

The possibilities for recreation in the Forest are for the most part of a primitive nature. It offers scenic vistas, camping, hunting, fishing and nature appreciation.

SAVAGE RIVER STATE FOREST—This is the largest of Maryland's State Forests and contains almost 53,000 acres of trees, streams and wildlife for your enjoyment. This Forest is located in Garrett County and forms part of the Appalachian Plateau. Within the Savage River Forest are two State Parks—New Germany and Big Run. These are developed recreational areas offering house-keeping cabins, picnicking, improved campsites and other facilities. Also within the Forest is the 525 acre Savage River Reservoir.

The Forest offers camping, hiking, sightseeing, fishing, hunting and winter sports. ■

THE WORLD CHOSE US!

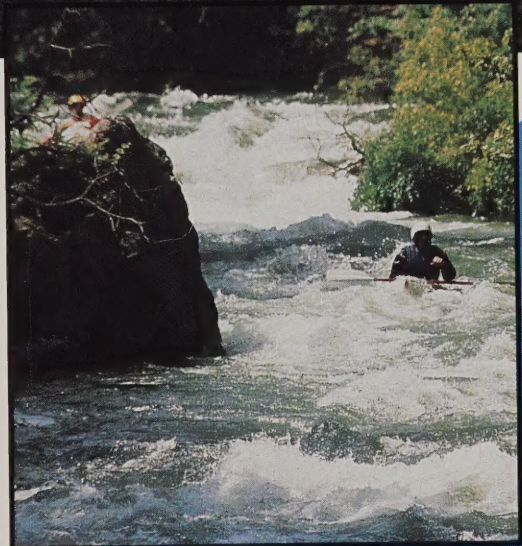

International whitewater authorities selected the Savage River in Garrett County as the site for international races in 1987-88, and world championship racing in June of 1989.

The word is getting out. Our mountains, lakes and streams are now recognized as world class by people who really know. That's why there's been such a "boom" in real estate sales in our area and that's why *Mid-Atlantic Country* magazine rated Deep Creek Lake one of the top 10 areas in the East for second-home investment.

When it comes to Deep Creek Lake, there's no better "expert"

around than A&A Realty/Better Homes and Gardens. Our expertise and professionalism is why so many visitors have selected A&A Realty to assist them in the selection of just the right investment. Once you've seen Deep Creek Lake and Garrett County, you're likely to be interested in investing, too.

Ask for our extensive list of rental properties. We really know Deep Creek Lake and Garrett County and our listings prove it. The same can be said for our excellent offerings for sale around the area. Return our coupon or call us today. Dial (301) 387-4700 or use our toll-free line, (800) 678-2668, Ext. 487.
